Purpose of this guide

This practical guide explains how EUYouthBridge members can access and use the Forum effectively. It provides step-by-step instructions for joining the Forum, starting discussions, sharing opportunities and resources, replying to other members, and following good community practices.

About the EUYouthBridge Forum

The EUYouthBridge Forum is the online collaboration space of the EUYouthBridge Network, developed within the CareerBoost project. It brings together organisations working with and for young people across Europe and provides a dedicated space for exchanging opportunities, knowledge, resources and experience.

Through the Forum, members can share funding and mobility opportunities, search for European partners, present project ideas, exchange good practices and educational resources, promote relevant events and training opportunities, and ask questions or request feedback from other members.

The Forum is designed to strengthen cooperation between organisations supporting young people, with particular attention to young people with fewer opportunities.

Visit the CareerBoost website
