

T06: Offering your Expertise for New EU Projects

Purpose: Introduce your organisation, highlight its expertise and experience, and let other network members know that you are open to joining new EU projects and partnerships.

Organisation - Give the name of your organisation and briefly describe what it does.

Example: [Organisation name] is a youth organisation supporting young people through training, mentoring and non-formal education.

Our expertise - Highlight the main areas in which your organisation can contribute knowledge, skills or resources.

Example: Youth engagement | Employability | Digital skills | Non-formal education | Inclusion

Our experience - Briefly describe relevant projects, programmes, activities or target groups your organisation has experience working with.

Example: We have experience delivering Erasmus+ activities and supporting young people with fewer opportunities through training and mentoring programmes.

What would we like to contribute to? - Describe the types of projects, topics, programmes or activities in which your organisation would be interested in participating.

Example: We are interested in joining European projects related to youth employability, digital inclusion, entrepreneurship and career development.

How can we contribute? - Explain the role your organisation could potentially play in a future partnership.

Example: We can contribute to participant engagement, training delivery, dissemination, pilot activities and the development of educational resources.

Get in touch - Provide contact details and a link where members can learn more about your organisation.

Example: Contact: [name/email] | Organisation website/profile: [link]

Posting tip: Focus on the expertise and experience that could be valuable to a future partnership. Keep the description concise so that potential project coordinators can quickly understand what your organisation could bring to a consortium.
